PROFESSIONAL SUMMARY

Software Engineer with 8+ years of experience in Java, Spring Boot, REST APIs, and microservices. Key contributor in modernizing legacy systems into microservices architecture, improving scalability, deployment flexibility, and maintainability. After a career break (2020–2025) to refresh skills and explore modern technologies, I have been actively developing multiple personal projects including the Patient Service, Contractor Assignment Service, and Football Service microservices applications, as well as currently building a real-time health Outbreak Tracking System using Spring Boot, Kafka, PostgreSQL, and React. Experienced in Agile, CI/CD pipelines, AWS, and automated testing (Cucumber). Seeking backend or full-stack engineering roles.

WORK EXPERIENCE

Software Engineer
ResMed | San Diego, CA | Sep 2012 – Jun 2020
- Contributed to modernization of EasyCare Online application: migrated from monolithic Java app to Spring Boot microservices, decomposing core modules into independent services.
- Designed, developed, and maintained scalable Java applications with Spring Boot and REST APIs.
- Delivered ~1 Agile releases per quarter, reducing defects by 5 - 15%.
- Optimized SQL queries and schemas, improving database performance by 20%.
- Integrated Cucumber BDD tests into CI/CD pipelines, cutting production defects by 25%.
- Mentored 3 junior developers via code reviews and pair programming.

Test Technician
Qualcomm | San Diego, CA | Feb 2012 – Sep 2012
- Performed diagnostics and functional testing on Qualcomm chipsets.
- Automated testing using Perl, reducing manual effort by 25%.
- Generated performance reports supporting root-cause analysis and reliability improvements.

EDUCATION

B.S. Electrical Engineering | San Diego State University | San Diego, CA | 2011

TECHNICAL SKILLS

Languages: Java, SQL, HTML, XML, JSON
Frameworks: Spring Boot, Spring MVC, Hibernate, JUnit, Cucumber, React
Databases: Microsoft SQL Server, PostgreSQL, MySQL, MongoDB
Cloud & DevOps: AWS, Jenkins, CI/CD, Git, Linux, Docker, Kafka
Methodologies: Agile/Scrum, TDD/BDD, REST API design, Microservices architecture

ADDITIONAL

Languages: English (Fluent), Spanish (Fluent)
